PROFILE

Experienced software engineer with expertise in Front-end and Full-stack development. Dedicated to continuous improvement and passionate about delivering efficient solutions. Seeking opportunities to contribute skills and enhance team success.

WORK EXPERIENCE

- Fullstack Developer Team Lead

2023 - present Police Cyber Unit

I have served as a developer of advanced technological systems for the entire Israeli Police organization, working in a diverse team on multiple projects simultaneously. I have held the position of Team Lead on various projects and assisted in training team members in designing Fullstack development standards.

- Fullstack Developer

2021-2023 Rami Technologies

Developed robust applications as a full-stack developer, utilizing React and Node.js. Focused on efficient front-end and back-end solutions, adhering to best practices and modern technologies to enhance user experience.

- Freelance Web Developer

2021 - present

Crafting visually appealing websites with flawless functionality, integrating captivating design with strong backend and frontend development.
