PROFILE

Experienced software engineer with expertise in Front-end and Full-stack development. Dedicated to continuous improvement and passionate about delivering efficient solutions.

WORK EXPERIENCE

Fullstack Developer Team Lead

2023 - present Police Cyber Unit

I have served as a developer of advanced technological systems for the entire Israeli Police organization, working in a diverse team on multiple projects simultaneously. I have held the position of Team Lead on various projects and assisted in training team members in designing Fullstack development standards.

Fullstack Developer

2021-2023 Rami Technologies

Developed robust applications as a fullstack developer, utilizing React and Node.js. Focused on efficient frontend and backend solutions, adhering to best practices and modern technologies to enhance user experience.

Freelance Web Developer

2021 - present

Crafting visually appealing websites with flawless functionality, integrating captivating design with strong backend and frontend development.
